

VostroNet

VostroNet provides a national high-speed internet network to purpose built student accommodation buildings and residential tower precincts

Key Features

Seamless connection

Wireless internet with our own dedicated 10 Gbps fibre to the building.

Powerful network tools, easy to manage

VostroNet's easy-to-use integrated software allows building management to quickly and easily on-board new students.

Support for all users

24/7 monitoring and technical support with a dedicated round-the-clock escalation manager.

Quality

Personalised solutions including white-labelled internet to add value to your brand.

The VostroNet Difference

We lead the industry in software-defined networks, harnessing software to optimise performance and user experience. Our entire network is monitored and maintained in real-time through our industry-leading Q2 Software Platform™, proactively resolving issues and keeping our customers happy.
