Payment Assistance Summary

Payment Assistance

We're here to help. Customers experiencing financial hardship have a right to apply for short-term assistance or long-term assistance and this assistance is provided free of charge.

What is Financial Hardship?

Financial hardship is where a customer is in circumstances where they are unable to meet their payment obligations but considers they will be able to meet these obligations if we agree to an arrangement for payment assistance. Circumstances that may affect a customer's ability to pay include illness, unemployment, reduced income, experiencing domestic or family violence, a death in the family, natural disasters and other unexpected events that change income or expenses.

What assistance can we offer?

We can offer a range of options to help you stay connected when you are experiencing financial hardship. Options that may be available include:

- Temporarily extending time for payment
- Agreeing on a payment plan tailored to your ability to pay
- Discounting or waiving certain fees and charges
- Placing a restriction on part of your service or specific services
- Transferring you to a plan better suited to your circumstances
- Removing non-essential features of a service at no cost.

Many of our plans are month to month, allowing you to change or downgrade your plan to one that better suits your needs.
